Remark: N/O = Not Observe, N/A = Not Applicable, Mark ✓ for grading and where applicable, (*) = Mandatory Item
Grading Scale: (1) Unsatisfactory, (2) Improvement Required, (3) Company Standard, (4) Effective, (5) Precise

EVENTS		GRADING SCORE						COMMENT
A. DISCUSSION - PERFORMANCE	1	2	3	4	5	N/O		
1. Adverse Weather / Runway Contamination / Thunderstorm Avoidance*								
2. Drift Down Procedure and Diversion Strategy*								
3. RVSM and China RVSM Procedures*								
B. PREFLIGHT PREPARATION AND GROUND OPERATIONS	1	2	3	4	5	N/O		
4. Preflight Preparation / Briefing / TEM / NAVAIDS Setting								
5. Engine Start / Abnormal Engine Start / After Start								
6. Taxi Technique / Assistance / ATC Compliance / Before Takeoff Check								
C. TAKEOFF	1	2	3	4	5	N/O		
7. Takeoff Technique / Rotation Rate / Takeoff Attitude								
8. Cross Wind Takeoff / Gusty Wind								
9. Rejected Takeoff at a reasonable speed before reaching V1								
10. Takeoff with Simulated Engine Failure / Fire at V2								
D. INFIGHT MANEUVERS AND PROCEDURES	1	2	3	4	5	N/O		
11. SID - Standard Instrument Departure / RNAV SID								
12. STAR - Standard Terminal Arrival Route / RNAV STAR / Holding Procedures								
13. 3D Approach to DH/A of 200 Feet or Higher								
14. 2D Approach (☐ RNP-RNAV / ☐ VOR / ☐ LOC) down to the MDH/A								
15. Manual Fly with / without Flight Director								
16. Manual Fly with One Engine Inoperative								
17. Approach Maneuvering (☐ Visual Circuit / ☐ Circling Approach)								
18. PBN Operations (*): Normal and Non-normal Procedure (Loss of RNP)								
19. IR: Instrument Departure / Arrival / Approach								
20. Automation Policy Adherence: Use the Appropriate Level of Automation								
21. Weather Avoidance								
22. Approach Preparation / Briefing / TEM / NAVAIDS Setting								
23. Descent and Approach Management / Aircraft Configuration								
24. Stabilized Approach Criteria and Compliance								
E. AIRCRAFT SYSTEM MALFUNCTION	1	2	3	4	5	N/O		
25. Auto Flight (☐ A/P Inop / ☐ A/THR Inop / ☐ FAC Fault / ☐ FCU or MCP Fault)								
26. Oxygen (☐ Flight Crew Oxygen / ☐ Passenger Oxygen)								
27. APU (☐ Fault-Auto Shut Down / ☐ Low Oil Press / ☐ Overspeed / ☐ APU Fire)								
F. ABNORMAL AND EMERGENCY PROCEDURE	1	2	3	4	5	N/O		
28. Engine Fire and Decision Making								
29. Engine Failures / Shutdown / Restart								
30. Engine Failure in Cruise Drift Down Procedures and Diversion Strategy								
31. Windshear at Takeoff / Landing								
32. TCAS TA Response (*)								
33. TCAS RAs - Maintain rate RAs / Weakening RAs (*)								
34. Approaches to Stalls Recovery ☐ Clean / ☐ Landing Configuration								
35. Pilot Incapacitation								
36. Declaration of Emergency or Urgency								

EVENTS	GRADING SCORE						COMMENT
G. MISSED APPROACH PROCEDURES	1	2	3	4	5	N/O	
37. Go Around / Missed Approach Procedure with all engines							
38. Go Around / Missed Approach Procedure with one engine failure							
39. Rejected Landing below DH / MDH / After Touchdown							
40. Go Around from Intermediate Altitude							
H. LANDINGS AND AFTER LANDING PROCEDURES	1	2	3	4	5	N/O	
41. Normal Landing / Landing Technique / Landing Attitude							
42. Landing in Out-Of-Trim Position							
43. Crosswind landings / Gusty Wind							
44. Reduced Flaps Landing (Flap3 or less)							
45. Landing with Simulated Engine Failure (Critical Engine)							
46. Landing Roll / After Landing / Parking / Securing Procedures							
47. Pax Evacuation Procedures (*)							
I. RIGHT HAND SEAT PROFICIENCY (For RHS Captain Only)	1	2	3	4	5	N/O	
48. Engine Failure before V1 RTO							
49. Engine Failure at Takeoff after V1							
50. One Engine ILS Approach Go-Around and Landing							
J. NON-TECHNICAL	1	2	3	4	5	N/O	
51. Crew Resource Management (CRM) / Assertiveness / Support Process							
52. Threat & Error Management / Security & Safety Attitude							
53. Public Address (PA)							
K. EGPWS	1	2	3	4	5	N/O	
54. EGPWS Mode 1: Excessive Sink Rate							
55. EGPWS Mode 2: Excessive Terrain Closure Rate							
56. EGPWS Mode 3: Descent After Takeoff or Go-Around							

Number of Manual Landing		Number of Go-around
